

Business Idioms Culminating Project: Class Idioms Dictionary

- For this final project, choose a minimum of **three** business / work idioms (either from the idioms homework from this term or including new business idioms you found yourself on the Internet).
- Working individually or with a classmate, write a dialog/conversation of a minimum of **six lines** between two (or more) people using the idioms.
- Then prepare a storyboard using Storyboard That. I will demonstrate how in class. Download your storyboard as a PowerPoint, add definitions for the idioms you used. Send me your work through Blackboard Messages.
- Last, present the dialog and storyboard to the class.
