

Back-to-School Series: OTAN News Items and Social Media Sites

Posted on 08/24/2018

This is the third in a series of news items that will provide information about essential features of OTAN for you to know as you and your colleagues begin the new school year.

In addition to having an OTAN account and receiving periodic emails from OTAN, two of the best ways to stay connected with OTAN throughout the school year are to follow our news items and subscribe to our social media sites. News items are posted on the main page of our website three times a week (generally Monday, Wednesday, and Friday). We try to post information about OTAN events and services and issues of interest to the field regarding technology and tech integration.

We are also increasing our social media presence via four sites. Please consider subscribing to our social media sites to stay connected:

Twitter <https://twitter.com/otan> or @OTAN

Facebook <https://www.facebook.com/otanservesadulthoodeducation/>

YouTube <https://www.youtube.com/otanservesadulthoodeducation>

LinkedIn Log into your account and search for Outreach and Technical Assistance Network

You can also connect to our social media from the OTAN website: <https://www.otan.us/> Look for the social media icons in the upper right-hand corner of the homepage.

Social media is a great way to learn more about what OTAN is working on and contribute to your own professional development. Please subscribe to our sites and add your voice to social media conversations with your fellow adult education colleagues.

Stay connected to OTAN! We look forward to hearing from you online!
