DLAC Logo

OTAN's two-year Digital Leadership Academy (DLAC) assists adult education agencies in meeting their technology integration, distance learning, or blended teaching goals. The program is designed to be flexible in how agencies can best use the resources offered by OTAN to support their agency goals. DLAC team projects are aligned to the annual Technology and Distance Learning Plan filed by all WIOA Title II funded adult education agencies.

The DLAC program is coming up on the end of its first year. On Thursday, May 16 and Friday, May 17, each DLAC agency will present their site plan at the DLAC meeting in Sacramento. The DLAC participants will present on their progress in the first year, the status of their team project, and resources created for plans, and how they are planning to implement projects starting in the fall of 2019. The program presentations will be livestreamed and recorded. (The videos of presentations will ultimately be posted on the OTAN YouTube channel.)

Here is the tentative schedule for the livestreamed presentations. Please join us to learn more about what each team is working on! You will be able to view the livestreamed presentations here: [Link to OTAN livestream presentations](#)

Team	Topic	Day and Time
