

OTAN Trainings

OTAN offers trainings on a variety of educational technology topics in both face-to-face and online formats throughout the school year. The workshops fit a wide variety of skill levels and can even be customized to meet the respective needs of a program or site. All workshops are free for California adult educators and staff, hosted at WIOA-funded agencies.

To learn more about OTAN trainings, click on the **Training** Menu at the top of the OTAN.us website.

Click on **What's Here** to learn more about the trainings that OTAN provides and training requirements, or view our [Face-to-Face](#) and [Online](#) workshops and other offerings.

Another way to learn about trainings from OTAN, CASAS, CALPRO, and other agencies is to visit the [California Adult Education Professional Development Training Calendar](#) from the same Training Menu. Use your OTAN account email address (or create an account as a new user) to register for open trainings that are listed on the calendar.

One additional training opportunity to be aware of is our monthly [OTAN Tech Talk](#), a quick look at a tool, technique, or tip specifically designed for busy adult education teachers. On the second Friday of each month, a new topic will be covered during a one-hour webinar where participants get information and a chance to get individual questions answered. You can listen to previous OTAN Tech Talk recordings on our [OTAN Tech Talks YouTube Playlist](#). Register for upcoming OTAN Tech Talks on the California Adult Education Professional Development Training Calendar.

If you have questions about any workshop or would like to schedule a training, you can call our office at 916-228-2580 or email us at support@otan.us. We update and add titles throughout the year, so make sure to check the Training pages regularly.

Please consider joining us at an OTAN training! We look forward to seeing you face-to-face or online!
