

OTAN Special Programs and Events

The Technology and Distance Learning Symposium is a two-day, all-things-education technology conference that is ideal for adult education teachers, coordinators, and administrators. This event, which will take place March 6 and 7 at the Charles A Jones Career and Education Center in Sacramento, will offer relevant and new information, dynamic presentations, and hands-on skill development to start or grow your blended/distance learning programs and enhance technology integration in the classroom. If you are interested in the types of sessions that are typically held, take a look at the [TDLS 2019 Program](#) for reference.

We have moved up some of the important deadlines for TDLS 2020 from last year, which now are:

- **September 16 to October 31** – Call for proposals
- **November 10** – Notification of accepted sessions
- **November 18 to the second half of February** – Registration

We will post news items and to social media about the deadlines throughout the fall and winter, so stay tuned!

Educational opportunities and services for adults

Adult Education STUDENTS SUCCEED

OTAN invites nominations of adult education learners who are successful as a result of the education received at California WIOA funded adult education agencies for the California Adult Education Students Succeed program. This is a great way to recognize the hard work that an outstanding student has completed in the pursuit of their personal, academic, and professional goals and aspirations. Visit the [Adult Education Students Succeed Website](#) for more information. On the home page, you can read stories and watch videos from previous years by clicking on the Students tab on the website. You can also explore stories from specific adult education agencies and programs by clicking on the Schools and Programs tabs. The nomination period will open at the start of January and remain open until April 15, 2020.

Please contact OTAN for your technology training needs or questions at any time this year!
